Experience

CAPABL, BANGALORE | FULL STACK DEVELOPER INTERN | July 2023 - August 2023

- Working at Capabl provided me with an invaluable opportunity to enhance my skills and gain hands-on experience in developing robust and scalable web applications. The guidance and mentorship I received from the experienced professionals at Capabl were exceptional. Their insights and constructive feedback greatly contributed to my professional development and problem-solving abilities.

Academic Projects

QuipWire (Social Media App) -

Distinguished the simple social media application with advanced features, including Time Capsule Messaging for deferred content delivery, an In-app Reward System based on user engagement metrics, and an AI Assistant with both chatbot and voice interaction for streamlined user support.

Travel Guidance App -

Along with Core features, this app has innovative additions such as Augmented Reality (AR) navigation for an immersive travel experience. Implemented personalized Travel History using APIs, enabling users to track their journeys. Overcame technical challenges in API integration. Generated Using MERN Stack.

Smart Vehicle Monitoring System -

This system can track location, detect over-speeding, accidents, and alcohol levels, storing information in a database and generating immediate alerts for accidents based on Crash Intensity of the Vehicle.. We are using React for website, and SQL for DBMS and Java for Programming Circuit boards.

Skills & Technical Expertise

- Java | Python
- Data Structures and Algorithms (DSA)
- Node JS | Express JS | React JS
- Responsive Web Development
- Git | GitHub | Linux
- MySQL | MongoDB
- Problem Solving | OOPS
- HTML | CSS | JavaScript
- Software Development | Full Stack
- Computer Networks | DBMS
